- Mairo Vergara Language Course - Technical education, languages and foreign literature - In progress.
- Languages: Portuguese (Native) - English (Basic) - Spanish (Basic).

• OBJECTIVE
I am committed to continually learning, improving my skills and growing within the company.
My goal is to gain recognition in my developer career and contribute significantly to the team's success. In the future, I aspire to expand my skill set to include game programming, an area that has always fascinated me.
Although I am new to the technology area, I am always looking to evolve, using the resources available to study and develop personal projects. I am extremely hardworking, persistent, a good listener and have a great interest in continually learning.

Why hire me?
Because I believe that, together, we can evolve and create solutions that make people's lives easier through technology.

I consider sincerity an essential basis for a good professional relationship, regardless of the environment. Therefore, I want to be transparent: as I am just starting out in the field, I will need support at the beginning. However, I am determined to learn and grow within the company, always seeking to add value to the team.

Thank you for the opportunity and I am available for a conversation!
